**KENNEDY MINE ARCHIVES GENERAL RESEARCH REQUEST**

Archive mine volunteers will look for records at the Kennedy Mine between 1876 and 1942, when the Kennedy Mine was shut down during World War II, and up to the present. Records of other mines may also be available.

Please see the Fee Schedule for details. Copies of documents will be made on request. You may specify the number of hours of research time, but the minimum charges will be: \$10 [one hour] for Individual, Academic or Non-Profit researchers [non-commercial use], and a minimum of \$25 [one hour] for Business/Commercial Use, paid in advance by cash or check. Archive fees help defray the cost of preserving the documents for the public. Your support is appreciated.

Once the specified time has expired, the researcher will contact you with the results found. Results are not guaranteed. If you wish for additional search time, please contact us to arrange it. Please fill out the Researcher Registration, and Copyright Agreement Forms in addition to this form. Records owned by the Kennedy Mine Foundation Mining Archive may also have licensing fees for Commercial use.
